PUBLISHER'S PREFACE

The works of Solastro represent the highest quality systems on the prognostication of sporting events of any type. Most of Solastro's work was done within the field of Horse Racing, which is traditionally the field where one finds the greatest number of works and systems applied to the betting field. Solastro began with a study of the best systems of the past, like those produced by Sepharial, Robinson, Butaney and others, and over decades of research, study and particularly application, refined and improved upon them, over and over again.

Aside from his most detailed work on Horse Racing, Solastro also focused considerable attention upon the Lottery prediction, and some of his most advanced and important system were designed for the prediction of the lottery systems still used today. He is quite famous for having won 4 lotteries back in the 1970's and 80's each over \$30,000. A friend of the Institute, who communicated with Solastro over 30 years, was given copies of the deposited checks for verification.

Many other of the most famous racing, lottery and betting forecasters similarly wrote their primary works on Horse Racing, and only very few on Lottery Prediction. But even rarer is to find any advanced systems for betting upon what have become the more mainstream sports of today, American Football, Football or Soccer, Basketball, Tennis, Hockey, or the many other sports that people follow and bet upon today.

The most likely reason for this is probably that back in the 1900's through the 1980's, when most of the great forecasters like Sepharial, Butaney and Solastro lived, Horse Racing and Lottery were the most accessible forms of betting available, and there was not a legal or accessible market to openly bet on other sports like there is today.

That being the case, there are very few systems by the great framed astrologers, numerologists, and forecasters of the past, except for Solastro! The core manuscript contained in this volume is Solastro's key work, *Astrology Applied to Football Pools and Field Games*", the only known work but the great master prognosticators for the last century on this collection of sports.

This is an extremely rare and valuable work, stated on the cover page, "FOR PRIVATE CIRCULATION ONLY", which in our research into Solastro we have determined meant that it was probably only released to a dozen people at most for a very high price. The

manuscript is not long, only 5 pages. But for those who know racing and lottery systems, the instructions to produce the forecast are generally not very complicated, so do not take long to explain.

However, for those who are not already familiar with the astrological and numerological systems of forecasting events, these instructions may be a bit brief to provide them with the full context. Therefore, we have included with this Key document, a series of Solastro's other works, mostly on racing, which will provide the basic knowledge of astrology and numerology, sound and vibration, which would be similarly applied to forecasting 2-player or 2-team games. We have also included a final manuscript applied to forecasting your own personal life cycles, which should be of interest to all.

The only real difference between horse racing and 2-team games, is that racing generally has a larger number of players competing against each other in a shorter time frame, where 2-player sports have only 2 competitors usually competing in a longer time frame. So Solastro's initial document in this text will convert the procedures applied to horse racing to this 2-player context.

The other works in the text will provide readers with all the other core principles that are used in other forms of multi-player racing so that they can be similarly applied to the 2-player sports. There are very few systems as advanced as those created by Solastro, so we wish everyone the best success in learning and applying these valuable techniques. We suggest they are treated quite scientifically and studied carefully, and that practice is made of them so as to generate the best results statistically.

One request that Solastro made of all of his clients was that they donated 10% of all their winnings to charity. We strongly suggest that the reader continue follow this very important rule, which is closely connected to achieving long term success. This principle has to do with important Karmic elements which will best assure continued success in these endeavors if followed respectfully.

For those who master these studies and desire more advanced principles and teachings to take the work and success further, we suggest you explore our other Solastro collections focused upon Horse Racing and Lottery, as we have other even more advanced teachings in those collections which are not included in this set. Go to www.sacredscience.com for more information, and for the largest collection of works on astrology, numerology, racing, betting, lottery and financial market forecasting.
