PUBLISHER'S PREFACE

The works of Solastro represent the highest quality systems on the prognostication of sporting events of any type. Most of Solastro's work was done within the field of Horse Racing, which is traditionally the field where one finds the greatest number of books and systems applied to the betting field, and this collection is the largest collection of Solastro's works on horse racing ever compiled.

Solastro began with a study of the best systems of the past, like those produced by Sepharial, Robinson, Butaney and others. In fact, along with our collection of Solastro manuscripts, we also possess six of the rarest Sepharial horse racing "Arcana or Keys" in the only original copies that have yet been discovered which were part of Solastro's original collection. We have included these manuscripts with our advanced horse racing collection, *Solastro's Master Horse Racing System*, or separately on their own.

Over Solastro's decades of research, study and application, he continued to refine and improve upon these systems, testing them over and over again, until he had produced systems so precise that he was able to generate success rates of 67% without even using an astrological horoscope. But with the inclusion of a horoscope, he could advance his success rates even higher. This collection contains all of Solastro's key systems, astrological, numerological, and vibrational, creating the largest collection of horse racing systems ever compiled into one volume.

We have one further volume that contains Solastro's final and most advanced work on horse racing, one that he claims surpasses all the rest and does not even require any astrology or advanced number theory. This piece, called *The Final Chapter to the Law of Cycles*, presents a totally different approach to horse racing prediction related to sounds, that supersedes all other systems producing better results with even less work.

Our volume, *Solastro's Master Horse Racing System*, contains this most advanced work, and also includes the Sepharial manuscripts as well as a final work he released at the end of his life called *Jottings from My Notebooks*, a "For Private Circulation Only" work that gives some final insights and adjustments selected from 12 volumes of his research notebooks, making his various systems even more efficient. Altogether, this collection

along with the Master System provides the most advanced insights into the prediction of horse racing even published.

What is interesting about Solastro is his continual interest in exploring new fields of prediction and as such, he did not limit his research to only this traditional system of horse racing and betting like the other authors did, but instead he continued to push the envelope into fields that no other prognosticator of his time explored.

He began by exploring the possibility of predicting the lottery, one of the most complex games there is, which he was quite successful in accomplishing, winning prizes of over \$30,000 four times, in four different lotteries, and almost hitting the jackpot in one, which he just barely missed. We have other volumes in our Solastro series presenting both his Key and his Master lottery systems, which are the best that have ever been produced.

He also was one of the first to explore the mainstream sports of today, beginning with European Football or Soccer, and developing systems which equally apply to any kind of 2-team or 2-player sport, such as American Football, Basketball, Tennis, Hockey, or the many other sports that people follow and bet upon today.

One request that Solastro made of all of his clients was that they donated 10% of all their winnings to charity. We strongly suggest that the reader continue follow this very important rule, which is closely connected to achieving long term success. This principle has to do with important Karmic elements which will best assure continued success in these endeavors if followed respectfully.

For those who master these studies and desire more advanced principles and teachings, we suggest you explore our advanced collection on Horse Racing, or if you desire a wider application, see our collections on lottery prediction or 2-team sports betting.

Go to www.sacredscience.com for more information, and for the largest collection of works on astrology, numerology, racing, betting, and financial market forecasting in the world.
